How do I get to the application screen in Gateway?

As an authorized user of the Indiana Gateway for Government Units (“Gateway”), users will have a username and password that will allow access to the program. The username is the email address on file with the Department of Local Government Finance (“Department”). The Department will assign an initial password, which should then be changed by the owner to something unique and confidential. Users are responsible for all information entered into Gateway under the authorized user’s username and password. Users without a Gateway account may contact Support@dlgf.in.gov to register.

Overview

Local officials begin the year with their unit of government's approved or Department of Local Government Finance ("Department") certified appropriation for each of their funds. An appropriation is a fund's permission to spend throughout the year, which is also referred to as the budget. Statute requires funds eligible to receive property taxes along with select others to undergo Department certification, while permission to spend for other funds rely upon amounts adopted by the unit's adopting body. At times, a need may exist to spend more than was originally budgeted. In this case, the unit of government might find itself needing to pursue an additional appropriation.

Through this process the unit of government: advertises a Notice of Additional Appropriation, holds a public hearing, adopts a resolution/ordinance, and submits the request to the Department. It's important to note that this process does not result in a fund receiving more money, it is simply seeking permission to spend more than it currently has permission.

Appropriations are certified and additional appropriations are approved by the Department, but spending enforcement is handled by State Board of Accounts ("SBOA").

IC 6-1.1-18-4 Appropriations not to exceed budget except as otherwise provided in this chapter, the proper officers of a political subdivision shall appropriate funds in such a manner that the expenditures for a year do not exceed its budget for that year as finally determined under this article.

IC 6-1.1-18-10 Excessive appropriations; liability of officers; action for recovery (a) If the proper officers of a political subdivision make an appropriation for an item which exceeds the amount which they are permitted to appropriate under this chapter, they are guilty of malfeasance in office and are liable to the political subdivision in an amount equal to the sum of one hundred and twenty-five percent (125%) of the excess so appropriated and court cost.

IC 6-1.1-18-5 outlines a series of steps that need to be completed to receive an additional appropriation: 1. SBOA Reporting, 2. Public Notice, 3. Public Hearing/Adoption. The Department is only changing the submission, review, and response procedures for additional appropriations.

The online additional appropriation application in Gateway streamlines the process of submitting an approved request to the Department. Local officials will enter the public hearing and advertising information, identify which funds have an additional appropriation request, provide financial data, and electronically submit the data to the Department.

This user guide is designed to walk officials through submitting their request after it has been properly advertised and adopted. Please visit the Department's website for all recent memorandum or contact your Budget Field Representative for more information about the procedures on completing the additional appropriation.

Records of Additional Appropriation Petitions will show here once added.

The advertisement is to be published one time in two newspapers published in the unit’s jurisdiction. If only one newspaper is published in the jurisdiction, publication in that paper is sufficient. The application will ensure that the notice was published at least 10 days before the public hearing. Please refer to the additional appropriation memo for further information and details on completing the additional appropriation process <https://www.in.gov/dlgf/2444.htm>.

The application will also make sure that the resolution was not adopted before the public hearing. Please note the “All Applicable SBOA Reports filed” field. This line confirms if the unit of government has submitted all applicable reports including the: Annual Financial Report, 100R, Anti-Nepotism policy, and Contracting policy. The two policies won’t apply to all units. An additional appropriation cannot be approved until all applicable reports have been submitted in Gateway to SBOA.

Manage Reviewed Funds

The Additional Appropriation application will classify each fund into one of two categories. Funds will either be subject to Department review or be a “reporting only” fund. The application will refer to the reporting-only funds as “non-reviewed” funds.

The Manage Reviewed Funds page will be populated with the funds subject to Department review. To review these funds to assess sufficient funding, certain financial data will be manually entered while other data is populated from the Department.

This page is a restatement of the calculations done on State Form 55819. This page now only requires local officials to provide six pieces of data. All other information will default into the application.

Select Fund

You will begin by selecting, “Select Fund” and click on the drop-down box arrow to open the fund list box. Then select the fund you want to enter data into first.

1. Property tax levy (Line 11): This field is automatically populated with the current year property tax levy certified by the Department.
2. Levy excess applied (line 10): This field is automatically populated with the current year levy excess applied by the Department.

3. Misc. revenue estimate (Line 13): This field is automatically populated with the current year revenue used by the Department to certify the fund's budget. This amount can be edited by clicking "Save and Update Revenues" at the bottom of the page.
4. January 1 Cash Balance (Including investments): This field is populated by the beginning year cash balance manually entered at the top of the page.
5. Subtotal of funds available (Add 1 through 6): This line calculates the total of lines 1 through 6. This represents total funds available before any appropriations are deducted for this fund.
6. Less circuit breaker (line 12) (Amount from Circuit Breaker Report): This field is prepopulated with the circuit breaker amount (also called tax cap loss). During the beginning part of the year, the unit's estimates used during budget certification are used. Once the actual amounts are calculated (typically in April) this field will be populated with the actual circuit breaker losses.
7. Calculates total funds available (7 minus 8): This is a total row that subtracts line 8 from line 7.
8. Department Approved Budget: This field is populated with the Department certified budget for the fund.
9. Encumbered Appropriations (line 15) Carried Forward from Previous Year: This field presents the amount of the encumbrances manually entered in the data entry section above.
10. Temporary loans outstanding as of January 1: This field is populated with the amount of outstanding temporary loans manually entered in the data entry section above.
11. Beginning obligations (Add 10 through 12): This is a total row that adds lines 10, 11, and 12.
12. This represents the amount of funds already committed to being spent for this fund.
13. Surplus funds (9 minus 13): Automatic Calculation: Subtracts line 9 from line 13. These are the funds available before the approval of any additional appropriations during the current calendar year.
14. Previous additional appropriation(s) approved since January 1, less any reductions: This field is populated by the Department with the total additional appropriations certified by the Department for this fund minus the total reported reductions for this fund.
15. Permanent Transfers Out: This represents the amount of funds permanently transferred to another fund. This would not include appropriated transfers.
16. Surplus funds Remaining: This row subtracts lines 15 and 16 from line 14. This represents the total amount of uncommitted funds available for the additional appropriation. If the amount on this line is equal to or exceeds the net amount requested (Row E), it is likely the additional appropriation will be approved if the proper procedures have been followed. The appropriation approved will be limited to the amount on this line.
17. Funded or Unfunded: This field will calculate if the requested amount is either funded, not funded, or partially funded. If the amount is partially funded, the amount approved will be only what available revenue will fund.

Once the page is completed, the user may edit the revenues or continue to the next page.
