This plan is based upon the presumption that the minimum useful life of a school bus is not less than twelve (12) years.

Note: Additional sheets may be added if necessary.

SECTION II
JUSTIFICATION FOR ADDITIONAL BUS PURCHASES, TRANSPORTATION SERVICES, AND/OR EARLY BUS REPLACEMENT

1. Pursuant to IC 20-40-18-9(2)(A), if the School Corporation is seeking to acquire or contract for transportation services that will provide for additional school buses or buses with a larger seating capacity as compared to the number and type of school buses from the prior school year, explain for each additional bus and the circumstances of the demand for increased transportation services within the School Corporation.

Not applicable

2. Pursuant to IC 20-40-18-9(4), if the School Corporation is seeking to replace an existing school bus earlier than twelve (12) years after the existing school bus was originally acquired or requires a contractor to replace a school bus, explain for each bus the circumstances for that need.

In Fiscal Year 2026, the school district will consider replacement of buses 125 (model year 2018), 122 (model year 2015), and 44 (model year 2017). Each bus has suffered extensive engine damage. The school district is reviewing options. The replacement cost for an engine does not appear to be economical, and so we are likely to replace the buses themselves.
